**Filing Instructions for the Guantanamo Bay Detainee Cases:**

Pursuant to the orders filed in 08-mc-442, and 08-mc-444 “all future filings shall be captioned to identify the Miscellaneous Number established solely for the purpose of consolidating the proceedings...as well as under the Civil Action Number originally assigned to the petition.” Accordingly, the parties shall use the above format for the purpose of filing all documents in these cases. (The civil case numbers listed above do not necessarily represent the total range of associated cases).

The only Civil Action Numbers that will be identified on any given filing will be the numbers applicable to that particular filing.

Attorneys can use ECF to file documents in the miscellaneous case and any associated civil actions simultaneously. To do this, log in to ECF, identify the type of filing, and when you reach the screen to enter the case number(s), enter the miscellaneous case number first followed by a comma, and then enter any additional cases to which you wish to file the same document, following each number with a comma. **Do not include spaces between the numbers.** Additional instructions are included herein for either pasting the case numbers or adding them individually.
